

Character Builder

您好嗎？

The basic unit of the Chinese language is the *zi* (字), i.e. a Chinese word. Each *zi* has a written form (called a character, made up of strokes), a sound (made up of consonant and vowel) and a meaning (or multiple meanings). When we speak or write Chinese, we string *zi* together to form terms, phrases and sentences.

This week: Words about motherhood

乳

Pronunciation: *ru* (Putonghua, 3rd tone), *yue* (Cantonese 5th tone)
